Digital Prices 2026

Surecolour Mini-lab Prints

SIZE (IN)	(CM)	PRICE PER PRINT
5 x 5”	12.70 x 12.70	$1.50
5 x 7”	12.70 x 17.78	$1.50
6 x 4”	12. 70 x 10.16	$1.00
6 x 6”	12. 70 x 15.24	$2.00
6 x 8”	12. 70 x 20.32	$2.50
8 x 8”	12. 70 x 20.32	$4.50
8 x 10”	20.32 x 25.40	$7.50
8 x 12”	20.32 x 30.48	$12.00

Scanning

PHOTO AND DOCUMENT SCANNING

We create high quality digital images from negatives, transparencies, slides and other media.
We can convert old movie reels and VHS to digital format.

Negative/ Slide Scan - Low res	$3.50
Negative/ Slide Scan - High res	$10.00
Digital Document/ Photo Scan A4	$10.00

FINE ART SCANNING

ARTWORK SIZE	UCM	RETAIL
Fine Art Calibrated Scan up to 300mm x 420mm (A3)	Up to 72	$50.00
Fine Art Calibrated Scan over A3 up to A2	73-101	$85.00
Fine Art Calibrated Scan over A2	102-143	$120.00
Fine Art Calibrated Scan Large	144-203	$160.00
Oversize and multiple scans		Quote

Scanning Prices are quotes for each individual order. The quality of scans, the size of the original artwork, the colour calibration requirements and the output file sizes need to be considered.

Printing File Requirements

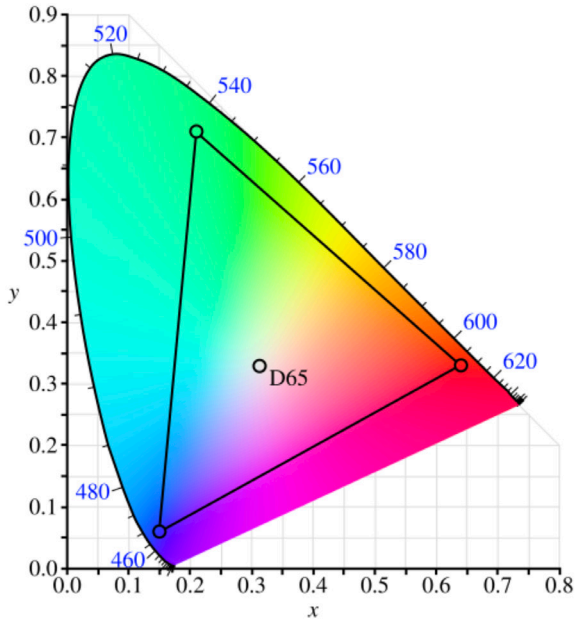

File Requirements & Printing Guidelines

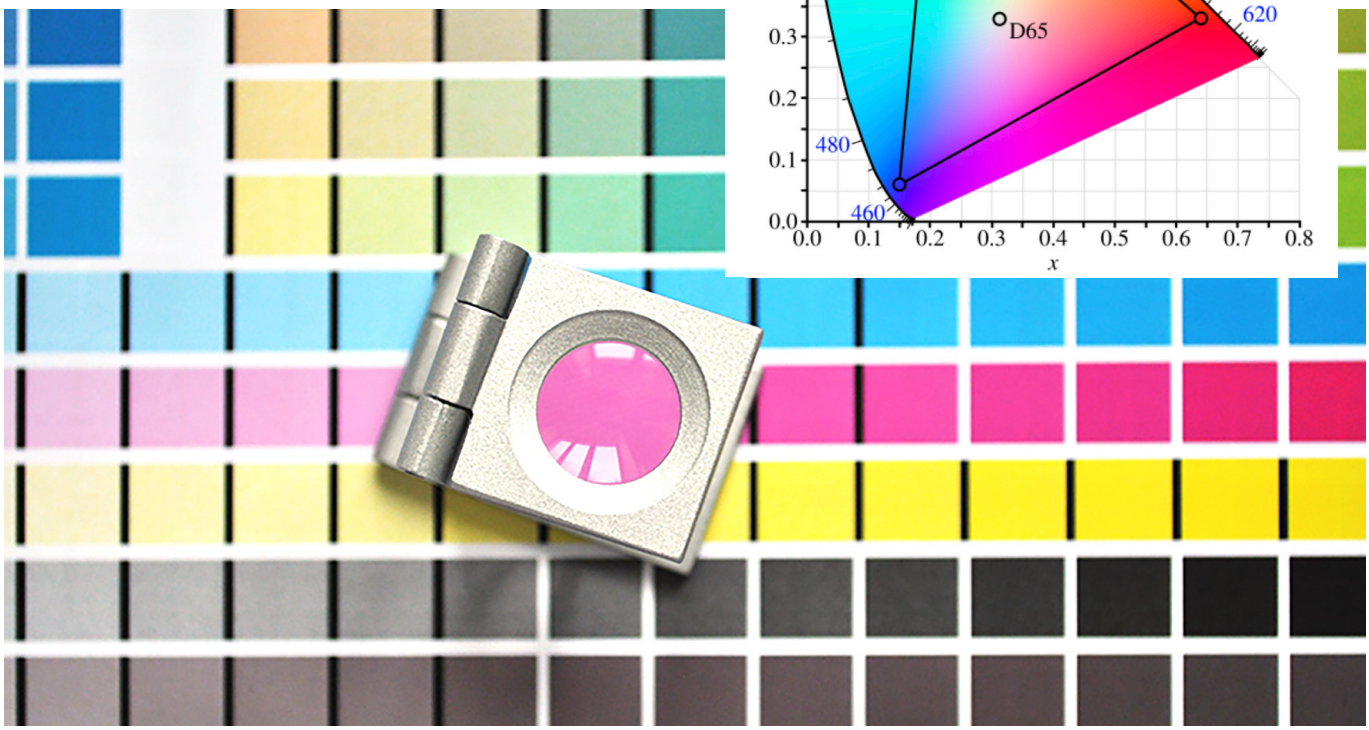

To ensure the highest quality prints, please prepare your files according to the following specifications:

- **Resolution:** Files must be set to 300 DPI (dots per inch).
- **Colour Profile:** Use Adobe RGB (1998) for accurate colour reproduction.
- **File Format:** Please submit 8-bit flattened TIFF or high-quality JPEG files.

Adobe RGB

Adobe RGB (1998) color space

File Sizing & Print Dimensions

Please size your file to match your desired printed image size-not the paper size. For example, if you want your image to be A3 Size, the file should be sized exactly to 297 x 420 mm including any borders you wish to include.

Note: Fine art papers do not print to the edge. There will always be a margin around the image due to printer handling requirements.

If you require your image to print at full A3 size (297 x 420 mm), we will print it on A3+ paper (329 x 483 mm) to accommodate the margins and ensure the image is not cropped.

The price is worked out by paper size - not image size.

File Formatting Assistance

If your digital file isn't set up to the required specifications, we can resize and format it for you. A small fee may apply, based on the time required to make the adjustments. Please contact us for an estimate if you're unsure whether your file is print-ready.

Print Size considerations

Sizing for Sale & Packaging

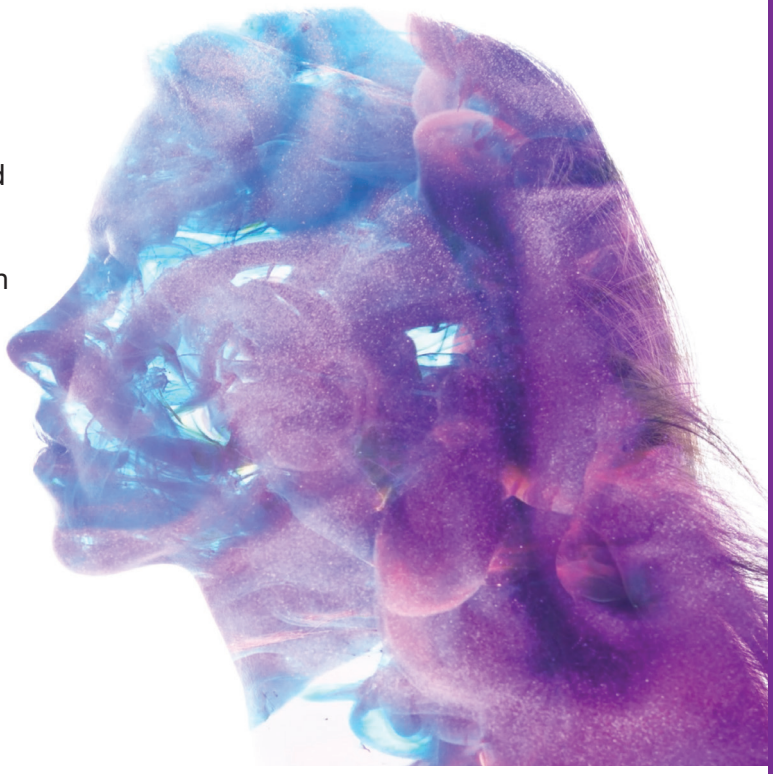

If you're selling fine art prints, it's important to consider how the finished product will be packaged and presented.

Do your prints fit a Krystal Seal sleeve? These clear, archival-quality sleeves are commonly used for professional presentation and protection. Choosing a standard print size that matches available Krystal Seal sizes saves time and cost in packaging.

Common Krystal Seal Sleeve Sizes include:

- 8 x 1 0"
- 11 X 14"
- 12 X 16"
- 16 X 20"
- 18 X 24"
- A4, A3, A3+

Be sure to size your print slightly smaller than the sleeve to allow for easy insertion.

Framing Considerations

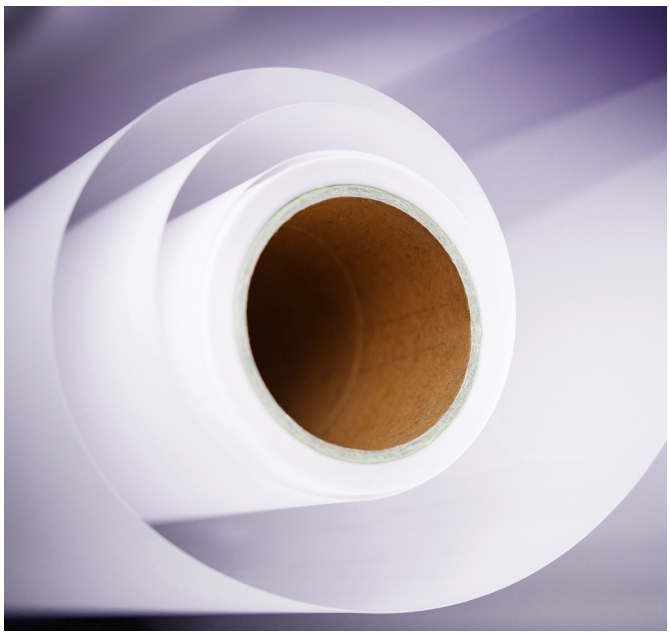

If you plan to frame your artwork, whether for sale, exhibition, or personal use, make sure your print size works with available matboards and frame materials.

Is your artwork under 900mm wide? If yes, it may fit into standard matboard sheets and backing substrates. If it's over 900mm, you'll likely require custom oversized matting and acrylic glazing (instead of glass), which is more expensive and safer for transport.

For prints over 900mm, traditional framing can be heavy and costly

We offer smart alternatives:

- **Heat Sealing** - Application of a protective UV layer to eliminate glare-no glass or acrylic needed.
- **Mounting to Gatorboard** - A lightweight, rigid board that won't warp.

Planning Tip:

Always determine the end-use of the print-sale, display, or gift-before sending a file to print. This helps avoid costly reprints, framing issues, or non-standard packaging sizes.
